

BOAM

Second Birmingham Oncology and Arthroplasty Meeting

Forrest of Arden Marriot Hotel, Maxstoke Lane, Birmingham CV7 7HR

Friday 6th and Saturday 7th July 2018

Theme: Improving Outcomes of Proximal femoral Reconstruction

Agenda

Friday 6 July

08.30	Coffee
09.00 – 09.05	Welcome address – Yve Buckland (Chairman, ROH)
09.05 – 09.10	Opening Address – Seggy Abudu
Session 1: – (09.10 – 10.30)	
09.10 – 09.25	Milestones in development of proximal femur replacements – Paul Unwin (UK)
09.25 – 09.40	Clinical Outcomes of proximal femur replacements – Fabrice Fiorenza (France)
09.40 – 09.55	Extendable proximal femur replacements – lessons learned – Rob Grimer (UK)
09.55 – 10.10	New Bearings in arthroplasty and potential uses – Derek McMinn (UK)
10.10 – 10.30	Panel Discussion
10.30 – 11.00	Coffee/Tea break
Session 2: - (11.00 – 12.30)	
11.00 – 11.15	Role of ultra clean air in prevention of infection – Andrew Thomas (UK)
11.15 – 11.30	Infection in Proximal femur Replacements and prevention – Mike Parry (UK)
11.30 – 11.50	Joint Sparing and Extra Articular Resection Proximal femur – Lee Jeys (UK)
11.50 – 12.05	The Unstable proximal femur replacements – Jon Stevenson (UK)
12.05 – 12.30	Panel discussion
12.30 – 13.30	Lunch
Session 3: - (13.30 – 15.30)	
13.30 – 13.45	Allograft prosthesis Composites Proximal femur replacement - Davide Donati (Italy)
13.45 – 14.00	High Intercalary femoral resections and Fixation – Davide Donati (Italy)
14.00 – 14.15	Fibula Strut Grafting for Proximal femur Tumours – Jon Gregory (UK)
14.15 – 14.30	Chondroblastoma of femoral head – Minna Laitinen (Finland)
14.30 – 14.45	Thrombopohylaxis after proximal femur replacements – Scott Evans (UK)
14.45 – 15.00	Panel Discussion
15.00 – 15.30	Tea/Coffee

Continued overleaf...

Friday 6 July (*cont...*)

Session 4: (15.30 – 17.30): Moderators

15.30 – 15.45	Implant survival and mode of failure of tumour endoprosthesis after lower limb tumour resection – Shintaro Iwata (Japan)
15.45 – 15.55	Silver ion levels in megaprotheses of the proximal femur – Maria Smolle (Austria)
15.55 – 16.05	Rehabilitation after proximal femur replacements – Emma Cockbain (UK)
16.05 – 16.15	Discussion
16.15 – 16.25	Osteoid Osteoma with focus on foot and ankle lesions - Mashito Hatori (Japan)
16.25 – 16.35	Immune cell profiling in soft-tissue sarcomas identifies CD20 cell infiltration as prognostic markers for patient survival – Panagiotis Tsagozis (Sweden)
16.35 – 16.45	Chondroblastic osteosarcomas are characterised by aggressive biological behaviour, resistance to chemotherapy and high metastatic rate. A series of 256 patients– Panagiotis Tsagozis (Sweden)
16.45 – 16.55	Discussion
19.30 – 12 midnight	Gala Dinner

Saturday 7 July

08.30 – 09.00	Coffee and arrival
Section 4:	Symposium 09.00 – 10.30 Custom or Modular Prosthesis or Allograft prosthesis Composite
Section 5:	Symposium 10.30 – 12.30 What's New in Implant Design and Future Research Projects
12.30 – 13.30	Lunch
13.30	End of meeting
